

This is a list of Breweries, Pubs and Inns that have been in business at some time in Malton & Norton. Some are still there and it's name is in **red**. It used to be said that you could see two pubs from anywhere in Malton, and seeing this list is not difficult to imagine. The original list was given to this web site by 'RONNIE FROM CURRY'S' but a much more comprehensive list with more detail, submitted by Shirley is now below.

BREWERIES IN MALTON

In the early 18th century there were nine small unlicensed breweries in the area between Yorkersgate and the river. Later in the century the larger commercial breweries began business. Details of these are as follows :-

1 THE OLD BREWERY

Established 1767. First it was Walker and Dunlop, then W. Walker & Co., then John Walker & Co. who sold it in 1892 to Garbutt & Johnson of the I-lovingham Brewery. In December 1893 it became Chas. Rose & Co., and remained so until taken over by Tetley's in 1969. It is now Tetley's Depot.

2 THE GRIFFIN BREWERY

Established 1793. It changed ownership many times during its existence, and ally closed down in 1879. It was purchased by Mr Botterill who, after some structural alterations, set up a furniture business there. The newly formed Co-op Society bought it and set up their first shop at 56 Castlegate in 1901. It was subsequently their butchering department and then their furniture warehouse. It then became Bill Foster's clothing factory, and is now a Woollen Goods factory.

3 THE DERWENT BREWERY

Established 1771 by the Russell family. In 1823 it was Russell & Witty, Mr Witty owning the our mill at that time. By 1840 it was Jas. Russell & Son, and so it remained until 1897 when William Wrangham of the Crystal Brewery became a partner and a limited company. Russell & Wrangham was formed. It was taken over, first by Melbourne Breweries and later by Cameron's and is now Cameron's Depot.

4 THE ALBION BREWERY

Established about 1830 by William Wilson, but it had a short life, having closed down by 1857. It was at the bottom of Castlegate occupying a site which is now part of Taylor & Browns works. Its granary and malt house were in use for a long time as the Fire Station, and were recently demolished in order that the addition to Taylor & Browns premises could be built.

5 THE CRYSTAL BREWERY

Established in 1864 by William Wrangham, who eventually went into partnership with Russells in 1897. Brewing was still carried on here until 1905, however, when it ceased production. It was at the lower end of Castlegate occupying

part of the site which is now Camerons yard just below the Ryedale D.I.Y. shop.
